BAMBOS CHARALAMBOUS MP
Member of Parliament for Southgate and Wood Green

HOUSE OF COMMONS

LONDON SW1A 0AA

Nobody should have to live in unsafe, unsuitable, or unsanitary accommodation

Today, following an inspection, the Regulator of Social Housing has awarded the standard of Haringey's housing services a grade of C4. This is the lowest possible grade and is nowhere near what residents deserve.

The details of this report and what it means for my constituents are deeply concerning. No tenant or leaseholder should be living in unsafe or unfit accommodation. Safe and secure housing must be made a priority by the Council to ensure residents' health, security, and wellbeing.

Every day, I hear from constituents struggling with disrepair, including severe mould and damp, overcrowding, and countless other issues. I am committed to supporting my constituents and have been raising these issues with Haringey Council since I was first elected to represent the wards of Noel Park, Woodside, White Hart Lane, and Bounds Green.

I want to make clear to all residents of Southgate and Wood Green that I remain available to support you with any housing issues you are experiencing. My team remain on hand to listen to your concerns and raise your cases with Haringey Council, and I maintain my working relationship with the Cabinet to ensure that your issues are resolved in a timely manner.

Following promises from Haringey Council today, I hope to see conditions improve and the system change for the better. On behalf of my constituents, I will continue to monitor and hold Haringey Council to account for any failures from their housing service.

I will always stand up for your right to a safe home. Please do not hesitate tocontact me if I can be of any support
